

## ABSTRACT OF THE DISCLOSURE

The passage of a container along a conveyor is lubricated by applying to the container or conveyor a mixture of a water-miscible silicone material and a water-miscible lubricant. The mixture can be applied in relatively low amounts and with relatively low or no water content, to provide thin, substantially non-dripping lubricating films. In contrast to dilute aqueous lubricants, the lubricants of the invention provide drier lubrication of the conveyors and containers, a cleaner conveyor line and reduced lubricant usage, thereby reducing waste, cleanup and disposal problems.

Certificate of Express Mailing	
Pursuant to 37 CFR 1.10, I certify that this application is being deposited on the date indicated below with the United States Postal Service "Express Mail Post Office to Addressee" service addressed to: Assistant Commissioner for Patents, Washington, DC 20231.	
Express Mail Mailing Label No. <i>EK64815821US</i>	Signature of Person Mailing Application <i>Molly McClellan</i>
Date of Deposit <i>June 16, 2000</i>	Printed Name of Person Mailing Application <i>Molly McClellan</i>
